

# Your Trusted Partner in Finishing Solutions

25 Years of Expertise in Paint Booths,  
Heat Systems & Plant Setups

SMART. SUSTAINABLE. SCALABLE.

# ABOUT COMPANY

## ➤ Introduction

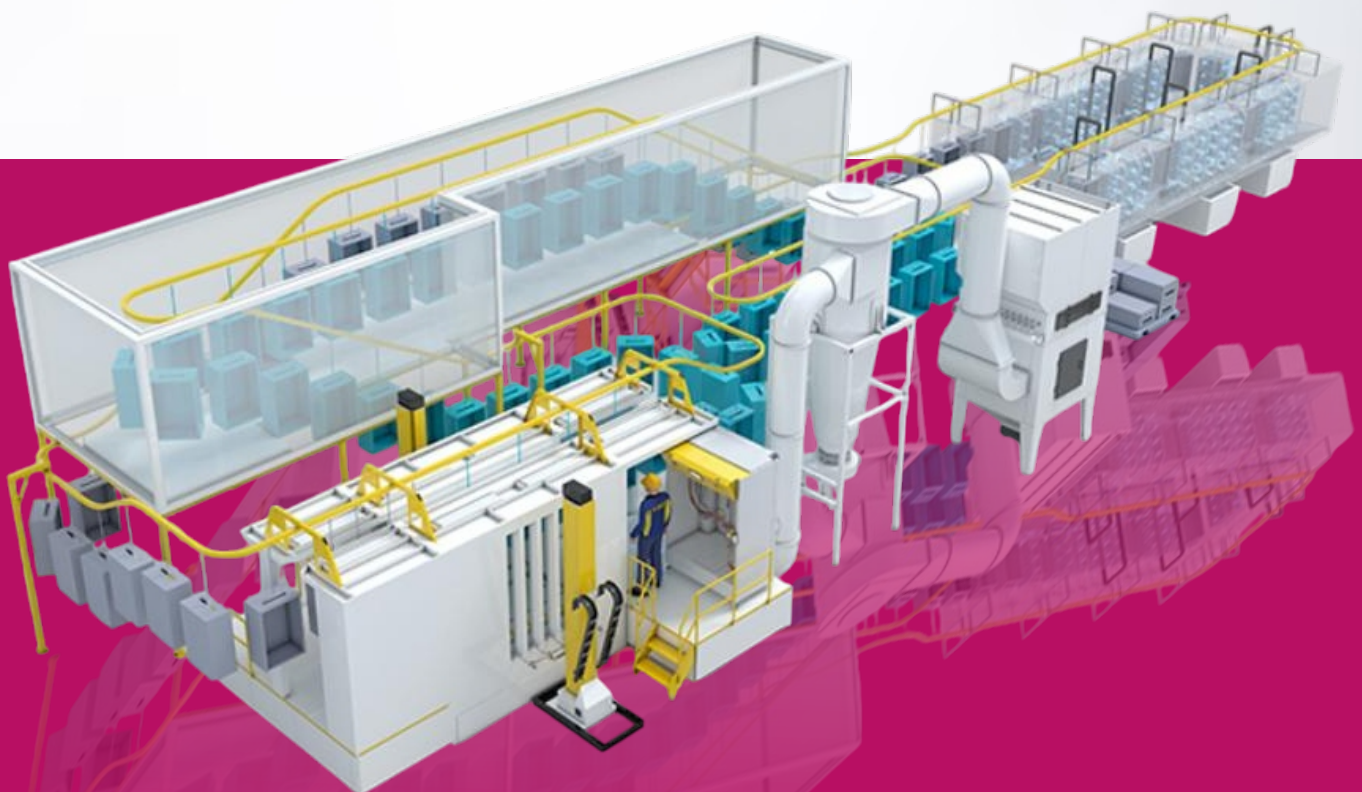

Welcome to **Elite Finishing System**, a leading provider of painting and finishing solutions with 25 years of experience in the industry. Our expertise lies in delivering high-quality products and services that cater to the diverse needs of our clients. With a strong focus on innovation, quality, and customer satisfaction, we have established ourselves as a trusted partner for industries seeking reliable, durable, and economical finishing systems.

## ➤ About Us

**25**  
YEARS  
OF EXCELLENCE

### Your Partner for Finishing Solutions in

- Assessing needs & capacity
- Layout & design considerations
- Budget & timeline
- Training & support
- Post installation consideration
- Equipment selection
- Safety protocol
- System testing & calibration

## ► Spray Paint Booth

# Solutions Precision & Perfection

Our spray paint booths are designed to provide a controlled environment for precise and perfect painting. With advanced ventilation systems and customizable configurations, our booths ensure efficient and high-quality painting processes.

## Features:

### Smart Airflow Control

Advanced ventilation systems for efficient painting

### Made to Fit You

Customizable configurations to suit specific client needs

### Power-Saver Technology

Energy-efficient designs to minimize energy consumption

### Built Like a Tank

Durable construction for long-lasting performance

### Clean in a Snap

Easy maintenance and cleaning

## ➤ Our Spray Paint Booth Benefits

- 01 Reducing airborne contaminants and dust, resulting in superior paint finishes
- 02 Minimizing paint spatter and overspray,
- 03 Safeguarding operators from hazardous fumes and volatile organic compounds (VOCs)
- 04 Ensuring compliance with OSHA, EPA, and NFPA safety standards
- 05 Improving workflow efficiency and product throughput

## ➤ Plant Setup

### Efficient and Productive

Our plant setup solutions are designed to provide efficient and productive plant layouts that maximize output and minimize costs. With advanced material handling systems and customizable configurations, our plant setups ensure optimal performance and reliability

### Features:

#### Layout That Works

Customized planning for smooth, efficient production flow

#### Energy Wise Engineering

Designs that save power without compromising output

#### Smart Handling Systems

Advanced tech for seamless material movement

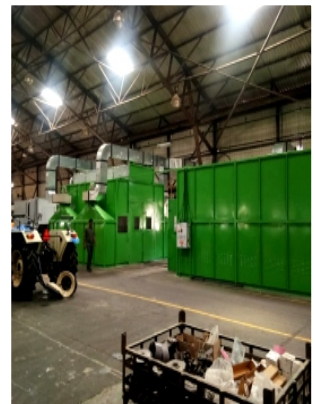

#### Tough from the Core

Built to handle pressure, made to last

#### Zero-Hassle Upkeep

Easy to clean, easy to maintain

## ➤ Plant Setup

### Efficient and Productive

Our plant setups are precision-built to align with modern industrial demands where functionality meets foresight. Every configuration is optimized for smart flow, minimal downtime, and maximum throughput. It's not just about setup, it's about setting new benchmarks.

## Core Advantages:

- Streamlined layouts for faster operations
- Intelligent handling systems for agile movement
- Power-saving designs that boost efficiency
- Robust structures built for heavy-duty demands
- Maintenance-friendly for sustained performance

## ➤ Heat Exchanger

### Efficient Heat Transfer

Our heat exchangers are designed to provide efficient heat transfer solutions for various industrial applications. With durable construction and customizable configurations, our heat exchangers ensure optimal performance and reliability.

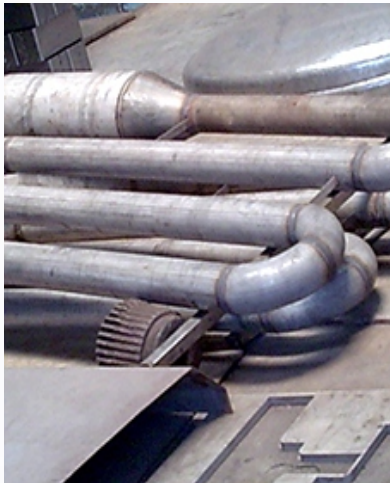

### Features:

**01 Maximum Heat, Minimal Loss**  
Engineered for efficient heat transfer and peak performance

**02 Built to Endure**  
Heavy-duty construction for long-lasting reliability

**03 Fits Your Flow**  
Configurations tailored to your process needs

**04 Energy-Smart Design**  
Saves power, boosts system efficiency

**Heat Exchangers  
For Tank**

## ➤ Oven

### Precision Temperature Control

Our ovens are designed to provide precision temperature control for various industrial applications. With advanced heating systems and customizable configurations, our ovens ensure efficient and high-quality finishing processes.

### Features:

#### Precision Heat Tech

Advanced heating systems for accurate temperature control

#### Tailored to Your Needs

Custom-built configurations that fit your process

#### Smart Energy Design

Lower power use, higher performance

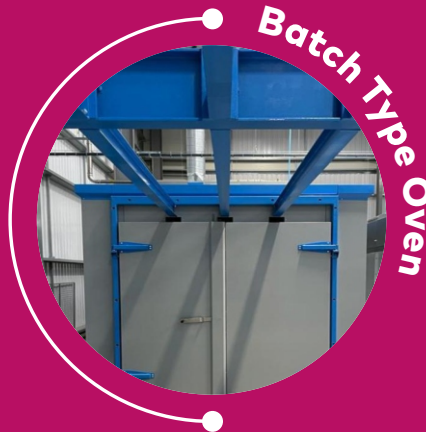

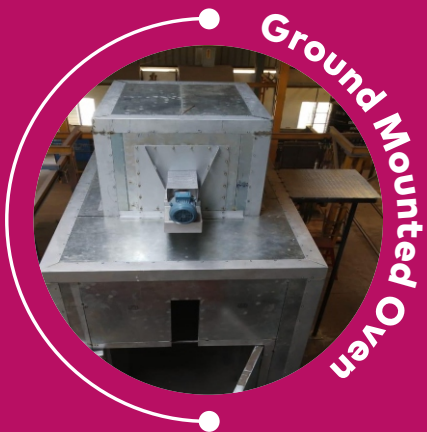

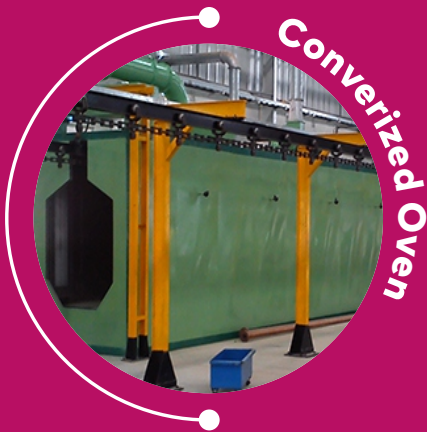

#### Built for the Long Run

Durable construction for years of reliable use

#### Maintenance Made Easy

Clean, service, and operate with ease

## ► Benefits of Our Ovens

Our ovens offer numerous benefits, including:

### Improved Temperature Control and Uniformity

Our ovens are designed to provide precision temperature control and uniformity, resulting in improved product quality and consistency.

### Reduced Energy Consumption and Costs

Our ovens are designed to minimize energy consumption and costs, while maintaining high-quality heating and drying processes.

### Enhanced System Performance & Reliability

Our ovens are designed to provide reliable and consistent performance, minimizing downtime and maintenance costs.

### Increased Productivity and Output

Our ovens are designed to maximize productivity and output, allowing for faster heating and drying times.

## ► Powder Coating

# Durable and Economical

Our powder coating solutions are designed to provide durable and economical finishing options for various industries. With advanced powder coating systems and customizable configurations, our powder coating solutions ensure optimal performance and reliability.

## Features:

### Tough & Timeless Finish

Durable and long-lasting finish

### Eco-Smart & Budget-Wise

Economical and environmentally friendly

### Custom Fit, Every Time

Customizable configurations to suit specific client needs

### Precision Coating Tech

Advanced powder coating systems for efficient application

### Low Effort, High Uptime

Easy maintenance and cleaning

## ➤ Conclusion

Your Partner for  
Finishing Solutions

## SERVING SECTORS LIKE

- Automobile • Wood Industries • Aerospace
- Machine Building • PEB Structure Painting
- General Manufacturing & More...

## OUR CLIENTS & INDUSTRIES WE SERVE

- L&T • Ajax • Caterpillar • TD Power Systems
- Toshiba & Mitsubishi • Pai Machines • Sri Energy
- Sayatva • Pressmatic • Talin • Deccan Diecasting
- VST & More...
